As a good progressive, I am in favor of low income housing. I am not entirely opposed to this project, EXCEPT for the fact that I am told there will be no laundry facilities. If one has ever been of low income, & had to get one's laundry to a laundromat (the closest one is many blocks away, & not on any bus route), one would understand the inhumanity of such a plan. What were they thinking. I guess to try to save a bit of money.
