Subject: Neighborhood concerns for project 3020114

Hi there,

I have significant concerns about project 3020114 slated for 6726 Greenwood Ave N. A unit of this size will bring with it considerable new street traffic. A fundamental issue that will have a major impact on our neighborhood is the availability of parking. A unit of this size must also contain parking. The surrounding streets will not be able to absorb the increased parking need.

Please let me know how the plan is working to add parking and transportation issues into the project.

Thanks,
Claire Horner-Devine
