Subject: Comments on Land Use Application - Project: 3020114, Bulletin date: 03/03/2016

No provision for visitors or renters to park at this location is a mistake. The neighborhood is landlocked and homeowners already have a hard enough time finding parking for their vehicles even with driveways (many shared) and garages. Everyone is competing with each other - especially the businesses located on that block and across the street - there simply isn't enough room for them all especially when you run the risk of said businesses losing patronage because people can't park. I walk to Phinney Ridge all the time and leave my vehicle at home because I know of the parking issues up there. Subjecting the homeowners and businesses to this decision is not fair to them - be a nice neighbor! Do what is right.
