Subject: 6727 Greenwood Ave N: comment

Since I cannot find words expressive enough to register both my outrage and my sense of loss at the projected construction of a building that demonstrably alters the character of my neighborhood. As someone in your department probably knows, parking is very tight in that immediate area already: my dentist is across Greenwood from that address, and finding a spot now is more miss than hit. Add 55 Units and NO Parking!?! Not going to be pretty. Make the developer dig parking or move elsewhere. At the very least, limit these developments in residential areas to fewer than 1 per 5 square miles, unless a subway or monorail is already in place.
