**Subject:** Feedback on Project 3020338

Dear committee for 3020338,

I feel very passionate about keeping our neighborhood true to our values and desires for Madison Valley including Madison Park and surrounding neighborhoods.

Every time we have engaged in a meeting with you, and expressed our concerns about your latest plans, I feel you fall short.

I would like to think you would respond in good faith, however, how can that be true when you never go far enough in addressing our concerns.

Why do I feel you are not taking us seriously?

City People's has been an integral part of Madison Park and Valley. All I and I believe everyone wants to accomplish is replacing City People's footprint with something equally positive while protecting the environment and beauty of our area.

It feels like you are not taking our concerns seriously.

To me, the biggest blow is suggesting a high rise Condo that will impact the travel flow for those driving through the area to reach our homes.

Let's work together to be creative in addressing our concerns.

I would like to think you are willing to take a big step in protecting the integrity of our area so that everyone is excited about what is happening.

The basic response letter that was suggested we could send was written beautifully.

I just wanted to respond with my own words and passion.

Thank you for reading and listening to my response.

I look forward to us all working together for the common good.

Please pardon any spelling or grammar errors.

Thank you,  
Lucy Ray
