Greetings -

I live up the hill from the proposed project at 2925 E Madison and I'm writing to voice my support. It's attractive, fits with the neighborhood look and feel, and, quite simply, we need the apartment units and the grocery store.

I say this as someone who regularly shopped at (and adored) City Peoples. We need multifamily rental housing in the city - way more than we need a place for those with disposable income to conveniently buy organic vegetable starts.

And we need lots of rentals quickly - before yet more people are forced to move away.

Please approve this project now. We can't afford to wait.

Whitney
