Subject: Letter of Support for PCC development (Project 3020338)

Hi,

I am a resident of Arboretum/Madison Valley neighborhood, and would like to extend my support for the PCC development. Having a natural grocery store within walking distance will be very convenient for families in the area. It will bring more people to the shopping strip on Madison, and help the small businesses located there. The plans look nice and the sidewalk area welcoming. My family and I look forward to this welcome addition to the neighborhood!

Sincerely,

Marianna Levant
