Subject: Feedback on Project 3020338

Please see comments below from Louis Hoffer (LSHOFFER@gmail.com)

I have lived in the City of Seattle for 40 years now. Never have I been so disappointed in how our city government seems so bent on running our beautiful city into the ground with money grabs such as higher property taxes with new building codes that allow for monstrosities like the proposed EDG #2. I beg that you take some pride in our city and stop trying to destroy it with cheaply constructed boxes built property line to property line that will inevitably become slums in decades to come and will be your legacy!

You should be ashamed of yourselves.

The "G-Rated" version is below.

Louis Hoffer

Dear Magda Hogness,

I am writing in response to the EDG Proposal #2 posted on DCI's website 10/17/2016. None of the options shown in this proposal adequately respond to the requests and recommendations contained in the memo sent by you to Lucas Branham and Tony Fan on 10/5/2016.

Increasing the setback on Dewey Place E by 5 feet is not a good faith response to the community concern for a reasonable transition to single family housing.

The board also requested an option that showed how the existing tree canopy might be preserved. None of the options honor this request, as the canopy would not survive with the disturbance to their roots that would happen.

The board requested that the architect and developer communicate with the community. They did not reach out to the community. Furthermore, community efforts to engage them in a dialogue were rebuffed.

None of the options presented in the second version of the proposal has a community space as was requested by the community and strongly suggested by the board.

No alternative to an above ground parking garage (on Dewey) has been offered. Rather than moving the garage underground, it remains exposed to the public on the eastern side of the site. Furthermore, the pedestrian experience on the eastern side of the building appears to be overwhelming and oppressive.

I am disappointed in the EDG Proposal #2. It does not treat the community's concerns or the board's recommendations and requests with the seriousness they deserve.
