Subject: Project number is 3020338

To whom it may concern,

I am writing in support of the project 3020338 submission for approval of Velmeir to place a PCC with units above in the space on Madison street currently occupied by the City Peoples Garden store.

The loss of the garden store will be of huge importance to the community, but a PCC would be a very worthy substitute and similar meeting place for local people.

Hoping this will be successful, thank you , a neighbor from Capitol Hill, Lesley Burvill Holmes
