Subject: Fwd: Comments on 2925 E Madison St (Project #3020338)

Dear Magda Hogness,

I would like for you to please consider a dramatic reduction in parking. This is conducive to creating a nicer and more livable neighborhood with less traffic. It'll also improve the urban form of the building and the sustainability of the place. On a transit corridor, it's frankly outrageous there are that many. More bike parking would also be good with me. If you can grant this zoning variance or somehow make it happen, I'd be much more satisfied with this building.

Thank you

Andrew Sang
