Hello,

I'm writing in support of moving forward with Project 3020338-U. We know there is a vocal minority that is not in favor of the project and slowing progress. We do not believe this group represents the neighborhood as a whole.

My husband and I and our 2 kids have been residents of Madison Valley for 5 years. We love the neighborhood and would like to see it continue to thrive. We would welcome the development especially with PCC, a local retailer. In addition we feel the architect and developer have been more than accommodating in meeting guidelines and adjusting based on community feedback.

Again, we know there is opposition but believe this is a minority of our community. We hope the City will continue to move forward and that our neighborhood will continue to improve.

Thank you,
Sarah Kim
