RE: Project #6463943
Project#3020114

Dear Planners,

This letter is to request that the project located at 6726 Greenwood Ave N. be required to undergo a full SEPA review. The project is planned to create 60 living units with no parking provided. This will have a significant impact on the transportation situation in the neighborhood, therefore triggering the SEPA review requirement. There is significant neighborhood opposition to this project base on the lack of parking.

Sincerely,

Lachlan E. Cooke
