Hello Mr. Darcy

I'm a property owner next to the planned development at 6726 greenwood ave n. I just learned that the developers have submitted their demolition permit and I request that this be delayed until the EPA can complete its preliminary assessment review in response to a petition I and my neighbors filed. Since demolishing current structures would result in soil displacement, it seems relevant that this approval for demolition not be approved until the EPA makes its determination.

Thank you,
Colleen pacheco and michael brandstetter
