

Petition to Oppose Planned Construction at Holy Names Academy

Petition summary and background	We, being good neighbors of Holy Names Academy, earnestly oppose the present planned construction of a multi-level parking garage on the site and the erasure of the beautiful park on the north side of the school, which is deeply valued green space. We believe both proposals are inimical to our neighborhood.
Action petitioned for	We believe the plans will introduce additional vehicle traffic to our area, will result in additional congestion, are over scale, will be a blight, especially on the north end of the property where the cherished, revered, and historic park will be paved with a parking lot, will cause unwanted noise and lighting on adjacent homes, will bring noxious fumes and construction and wreak havoc in the adjacent area during and after a lengthy period of construction, and is plainly contrary to environmentally conscious policy of encouraging less driving, not more. We, the undersigned, oppose the current plans and wish our voices to be heard and respected. If the school cares about the neighbors as it professes, we ask that its current plans be reconsidered, that additional inclusive discussion be held, and that rational alternatives be pursued.
