In the Matter of the Appeal of	) Hearing Examiner File:
	)
DENNIS SAXMAN, et al.	) **W-13-008**
	)
From a SEPA Determination by the Director,	) **Appellants' Addition of**
Department of Planning and Development	) **Two Names to their Witness**
	) **List**
_____	)

ADDITION OF WITNESSES

In addition to the witnesses whose names were submitted in our Dec. 16, 2013 filing, the Appellants submit the following plan to call two additional witnesses:

Greg Hill, to testify regarding fire safety in building design and as addressed by various laws, regulations, and best practices; on impacts on need for public services, especially fire protection; as well as on various matters regarding microhousing and land use of which he has knowledge. We anticipate that the questioning and testimony will require approximately one and a half (1.5) hours.

Dennis Saxman, to testify regarding various matters regarding microhousing and land use of which he has knowledge. We anticipate that the questioning and testimony will require approximately three (3) hours.

BACKGROUND ON THIS FILING

Appellants on Dec. 16, 2013 filed with the Hearing Examiner and the City our Request for Permission to Supplement Exhibit and Witness List. To this point (Jan. 2, 2014), the City has not objected to this Dec. 16 request and the Hearing Examiner has not ruled on it. In order to provide the City a timely notice of our added exhibits, the Appellants on Dec. 23 submitted to the Hearing Examiner and to the City via e-File the list of two brief additional exhibits, and the full exhibits themselves.

In accordance with our practice on Dec. 23 of providing notice of the two additional exhibits in advance of the Hearing Examiner's ruling on our right to make that addition, we are also submitting today this list of two additional witnesses, and will appreciate the support of the Hearing Examiner and the City in making this addition.

Respectfully submitted,

Chris Leman, Authorized Representative for Appellants
January 2, 2013
