Re: *In the Matter of the Appeal of Stop Alki Cell Towers*, Hearing Examiner File MUP-15-016 (CU)

Dear Madam Examiner:

Pursuant to the May 19, 2015 Prehearing Order in the appeal of Stop Alki Cell Towers referenced above, I am writing to narrow issues in the appeal. Appellant Stop Alki Cell Towers (SACT) is withdrawing the following two issues from its appeal:

1. The location of the proposed equipment, cell tower antennas, panel antennas, associated auxiliary equipment, and equipment cabinets which will house radio equipment and/or batteries for the project violates the required five foot (5') front setback (SMC 23.45.014.A) or the required five foot (5') side setback (SMC 23.45.014) and require five foot (5') rear setback of the project building.
2. Interfere with the existing AT&T rooftop telecommunication facility located at 2720 Alki Avenue SW.

Please do not hesitate to contact me if any questions remain about SACT's narrowing of the issues in its appeal.

Very truly yours,

BRICKLIN & NEWMAN, LLP
