Subject: project #3020114

I am writing to briefly note my dismay regarding the proposed building at Greenwood Ave. & N 68th St. (i.e., 6726 Greenwood Ave. N).

I believe that it is absolutely critical that housing projects like the one proposed here are wisely vetted by the city of Seattle, as housing is understandably one of the most volatile issues at this time. And as far as I can tell from the project details that I have seen concerning this project, the developers have not submitted plans that are in the best interest of the city or the neighborhood. I am writing to encourage the city to press the developers regarding the lack of parking, lack of affordable housing, and lack of family housing within this building.

Allowing the construction of this building without such features strikes me as a grave error.

Thank you,
Andrew Shutes-David
