Subject: Citizen Comment Project #3020114

Hello,

My name is Anthony Marsh and I'm a home owner in Seattle, a little further north of this project, in the Greenwood area. I am emailing to send my support for this project. Seattle will only continue to grow if we allow people to move. And it will grow best if we allow them to move into desirable areas. That area of Phinney Ridge is well served by transit and highly walkable. We should encourage development which will allow more people to live in that area. And I'm especially heartened that the units in this project will be efficiency units. Those are more likely to be affordable to low and middle income residents.

All the best,
Anthony Marsh
