> I am a Phinney resident and I was extremely concerned when I heard that the new condos on Phinney were not planning to provide parking for its residents. The current lack of parking along Phinney is already very hard for the businesses. The area is thriving and there are many small business with street only parking who need patrons to have easy access. When there are events at the zoo, the residential and business areas are flooded with cars. Adding 50+ households to the mix and hoping they won't use vehicles is naive.
