Subject: Demolition Permit #6560359/ Project #3020114: 6726 Greenwood Ave N

Dear Michael Dorcy, Planner:

As representative of my father, Wallace, who lives directly to the east of this property, I would like to request a delay on the issue of the demolition permit. We and several neighbors have asked the EPA to make a determination on the the environmental hazards that we feel weren't adequately tested for by the project developers. The EPA is in the process of making their assessment. We feel that it is everyone's best interest to await this assessment before any permitting is granted and any ground is disturbed. My feelings and concerns that I expressed to the city over the summer have neither changed nor been abated. The EPA's opinion, as an outside perspective, will help ease my anxieties.

Thank you for your time and attention to this matter.

Sincerely,

Elizabeth Johnson
